

## ShadeTree® Full-size Displays

A full-size ShadeTree® System display lets your customers see how easily the canopies operate, and shows how a new “outdoor room” can be created for their enjoyment. The display presents a pleasant in-store image and helps sell other outdoor products, such as lawn furniture, grills, lumber, etc. Projection of canopies/displays can be adjusted if desired. Includes one mesh canopy and one stripe canopy (plus one solid canopy if 3-section display). Brochures with 4-color signage, fabric swatchbook, and “Shade Ideas” photo book included. Custom displays are available, [contact ShadeTree](#) for details.

### A. Vinyl Pergola (complete, white or beige)
